#PROFILE RESUME

Bangun Bagaskara

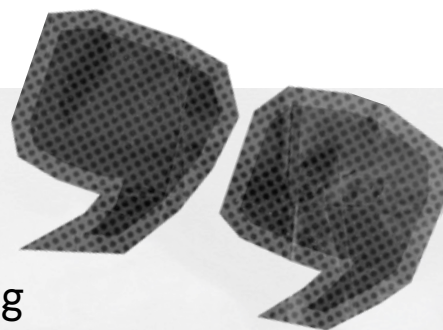

About Me

Hi, you can call me **Bangun / Bagas**. I'm doing UI UX, products design, Landing Page Website, and Creative design for brands/entrepreneurs with cool projects.

I have been working as Creative Designer for more than **6 Years** and still love to do it every day. I was worked some company like **Startup, Agency, Software House** and of Course 10 Years **Freelancing** for Indonesian and international clients.

After seeing this chance on Internet. I feel, its time to make big step, I don't want to miss this chance. Hope we can work together!

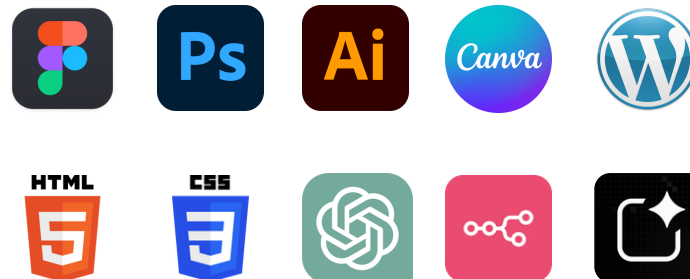

Technical Skills

What can i do in advance?

- ✓ **UI UX**
- ✓ **Product Design**
- ✓ **Web Development**
- ✓ **Graphic Design**
- ✓ **Prompt Engineer**
- ✓ **AI Automation Engineer**

So, on this day i advancing some tools like

Personal Skills

What i offer about my personal skills?

Time Management

Problem Solving

Critical Thinking

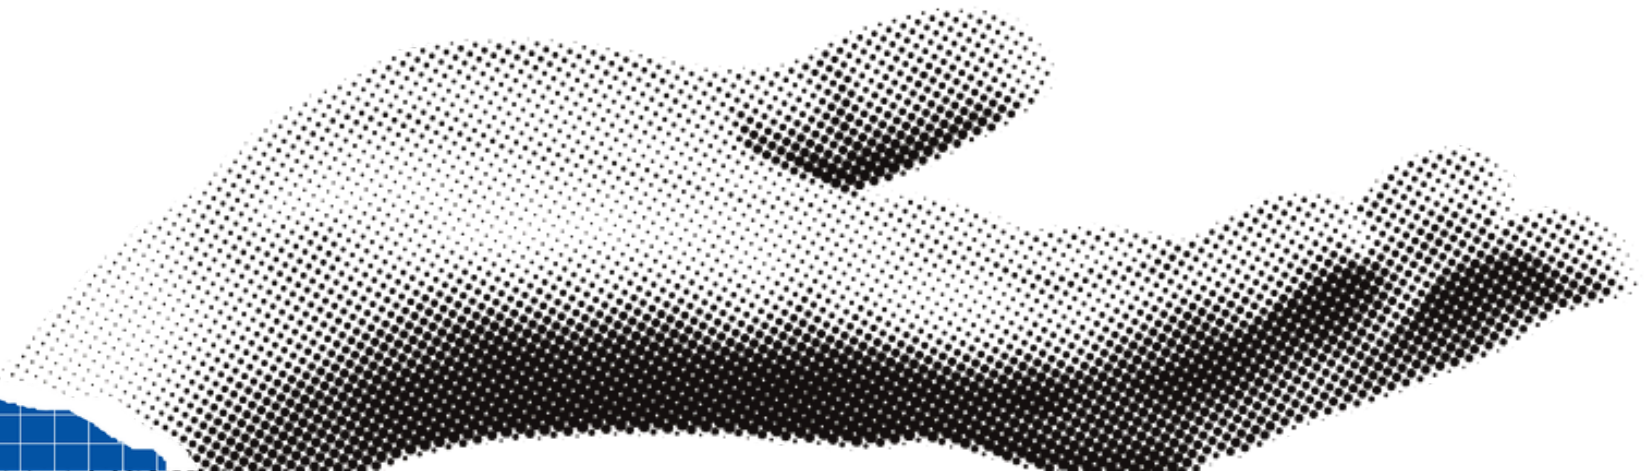

Like to learn new things

Always Update

Fun

Work Experience

PT MEEBER

2018-2019 : **Creative Designer**

This is my first time being a creative designer employee. I learned a lot about branding, advertising & promotion in this place.

PT GLOBAL BERSAMA UTAMA

2019-2021 : **UI UX Design**

I'm doing solo UI UX Design and part of being product development (Design, Web Front End, and QA).

Gratefully, **i make the GBU more trusted by client**, because every project we do is more targetted to goals and easier to use. we measured it from how much the same client doing repeat order until we have client from HMS Sampoerna and Singapore Client.

Work Experience

PT NOTIS DIGITAL

BY MENJADI PENGARUH

2023–2026 : **Creative Designer**

In this agency i'm doing client's branding and marketing design like a logo, promotional assets, and internal design assets subsidiary named notis.

I try to spread my knowledge about project management and it works. The flow is more simple and **it make us faster deliver a design but still managed correctly** whether it's at a big notis event or a client project.

FREELANCE

2017–Present

On freelance of course i make it for sidehustle, but beside this i still enjoying to developing my self for each skill that i have.

For example **i still following what the newest trend and sometime clients wants it to add its into their project.**

Education History

POLITEKNIK NEGERI JEMBER

INFORMATICS MANAGEMENT

I learned many things about the basic of programming world. i learned how to build desktop apps, website and mobile apps.

SMKN 1 TAPEN

RPL (Rekayasa Perangkat Lunak)

This is my first time learning about desktop and website programming. I really like about tech and computers. Then i decided ti continue my stuidies at State Polytechnic of jember and majoring in Informatics Management.

challenging to find hap
uation that you don't
cause we're

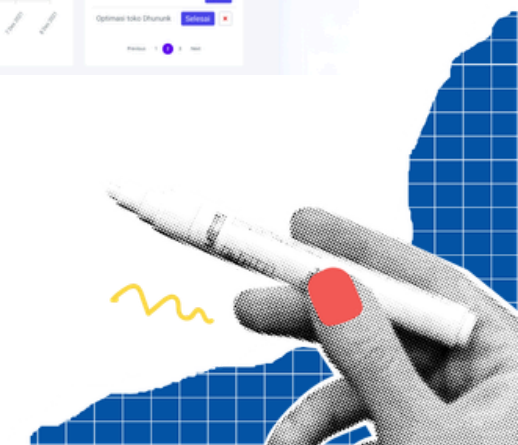

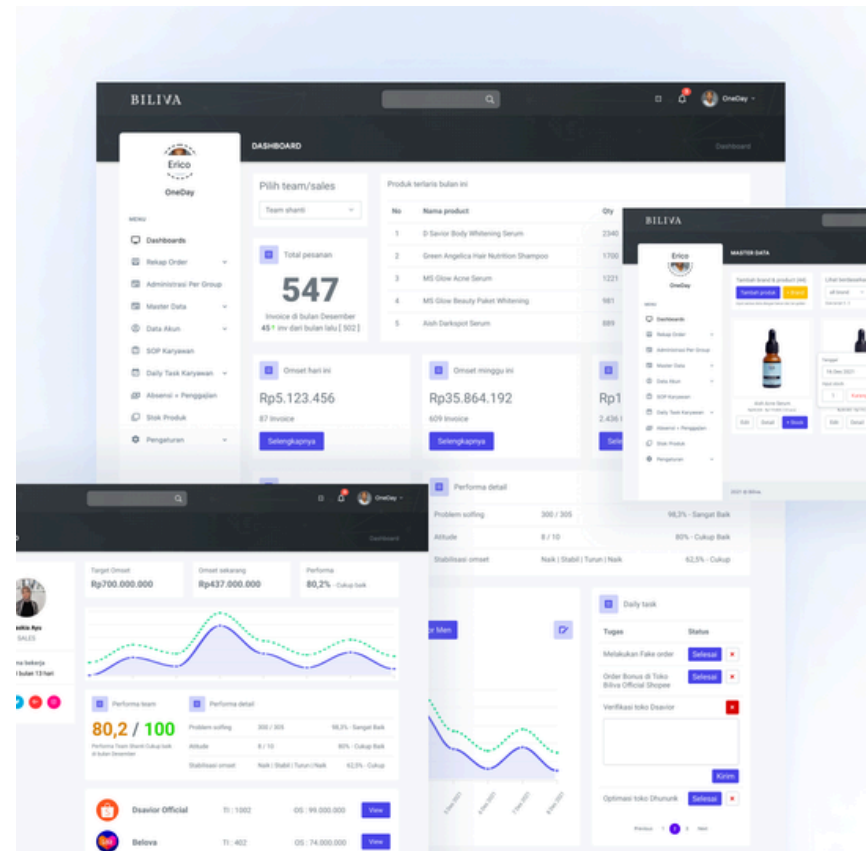

UI UX Portfolio

Biliva

Here is a dashboard from Biliva company whose main idea is that this platform can monitor stock, upload, edit, delete and even create product promotions from 1 platform to 4 marketplaces (shopee, tokopedia, lazada and bukalapak).

the results after the trial, **the admin at the Biliva company can work faster and more efficiently. Then the management team also felt that it was easier to organize what promotions would be given to prospective buyers.**

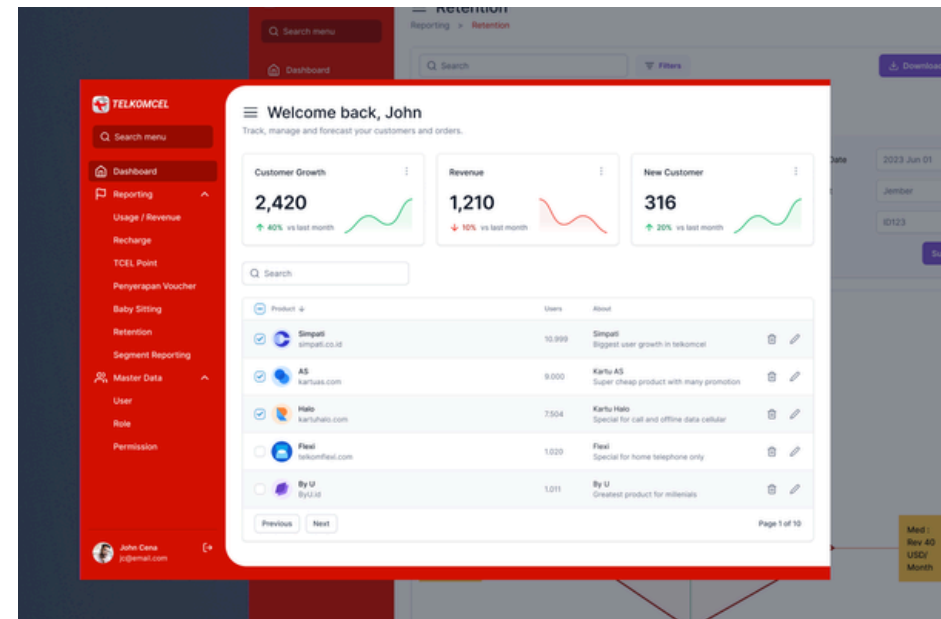

UI UX Portfolio

Telkomcell Dashboard

This is the UI dashboard for Telkomcell's prepaid credit which of course will display some important information about all activities and features offered.

The result is, after this dashboard is launched, **the prepaid credit data in circulation is more traceable and from the perspective of Telkomcell employees, it is certainly easier to read data from their products**

UI UX Portfolio

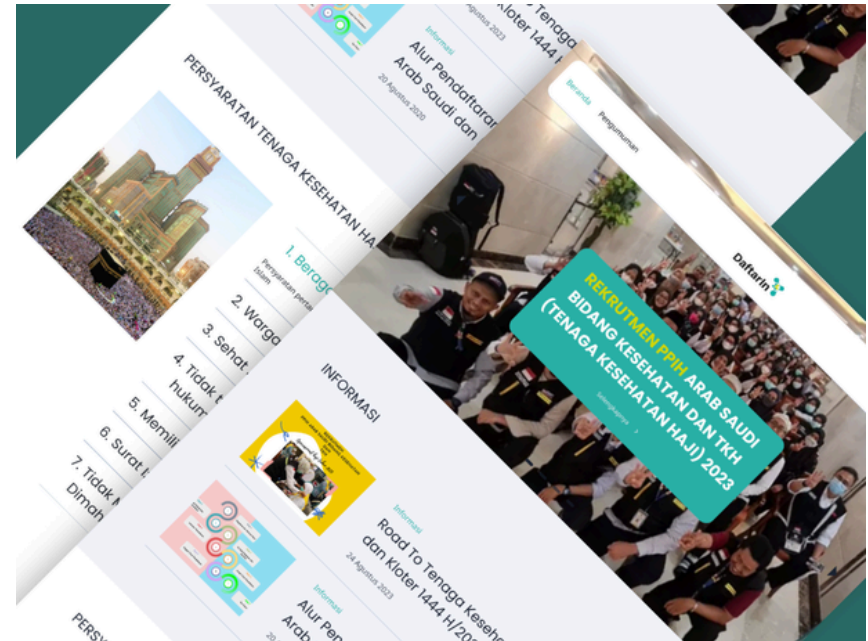

● DaftarIn

This is a revamp project about the landing page and registration page for health workers which will be placed in the health check section for jamaah Umrah in Saudi Arabia.

The purpose of this project is to provide information about registration, flow, requirements, to blogs about health workers.

After the trial was completed, the results obtained were accurate information and this platform was easy to use by people who are not familiar with technology. The results in percentage, **80% of questions that are often asked to officers in the field, began to decrease.**

Logo Portfolio

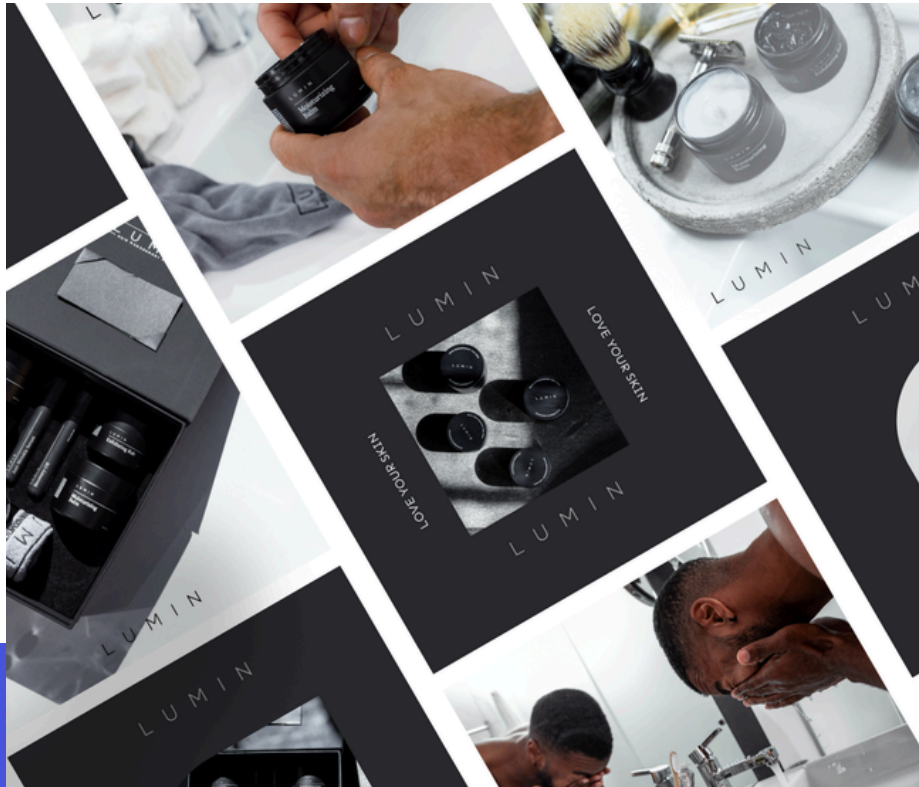

This is logo that my clients was request, sometimes they just need generic logo but many clients needs creative concept for it.

NASI BAKAR
TENANG

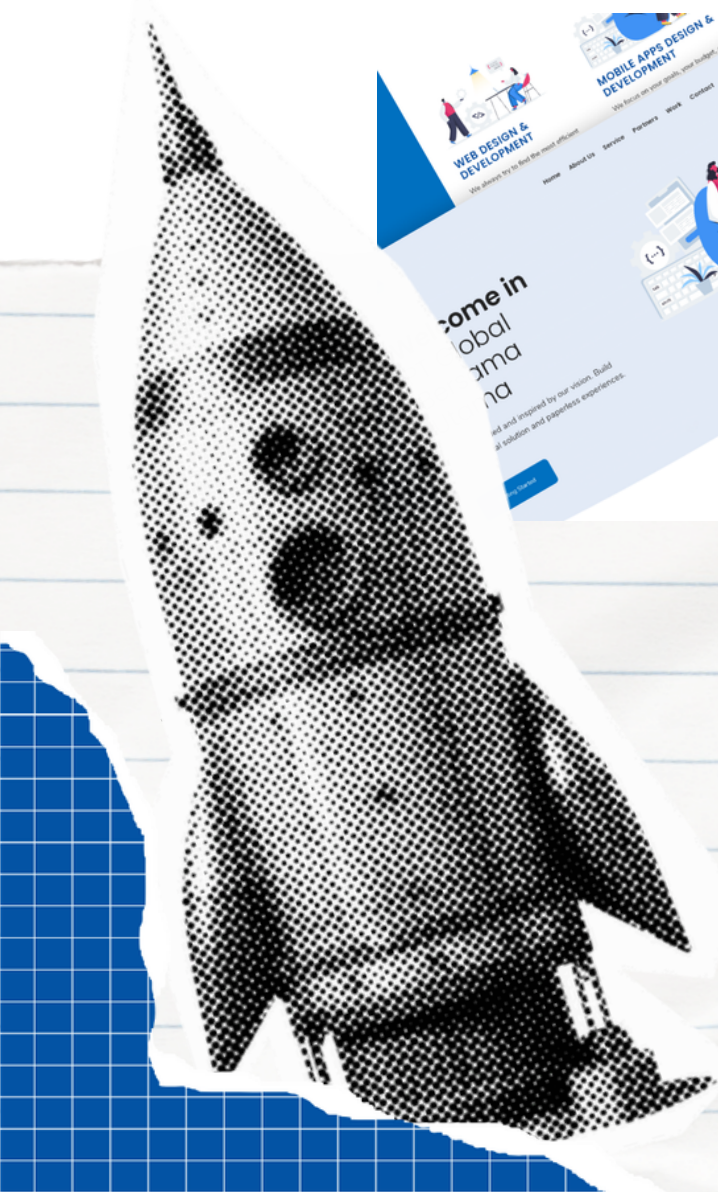

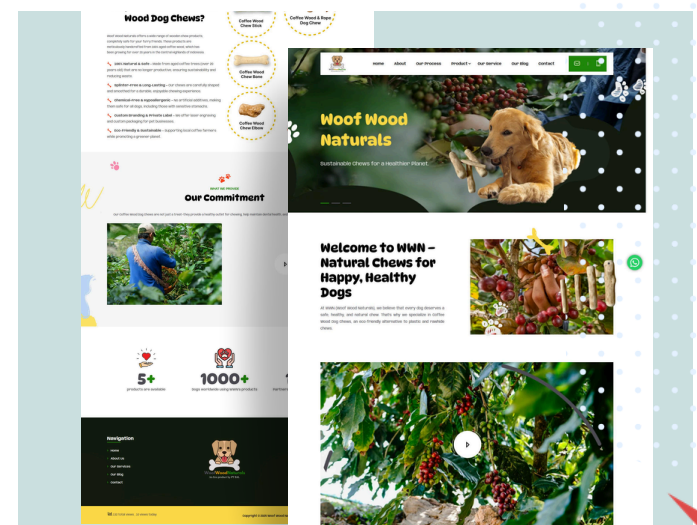

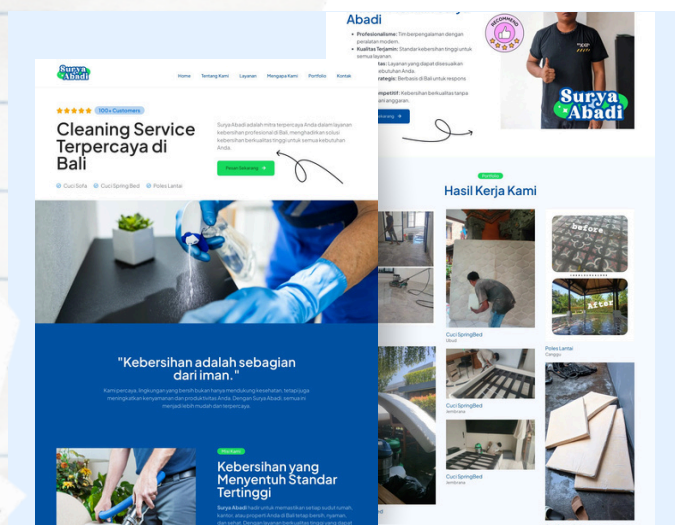

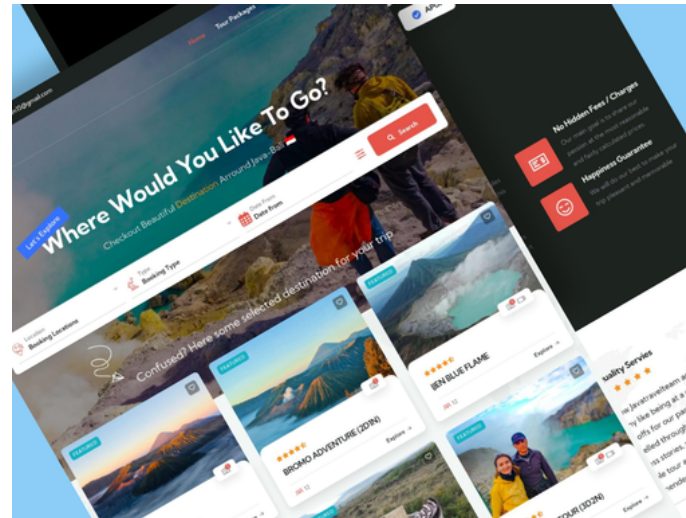

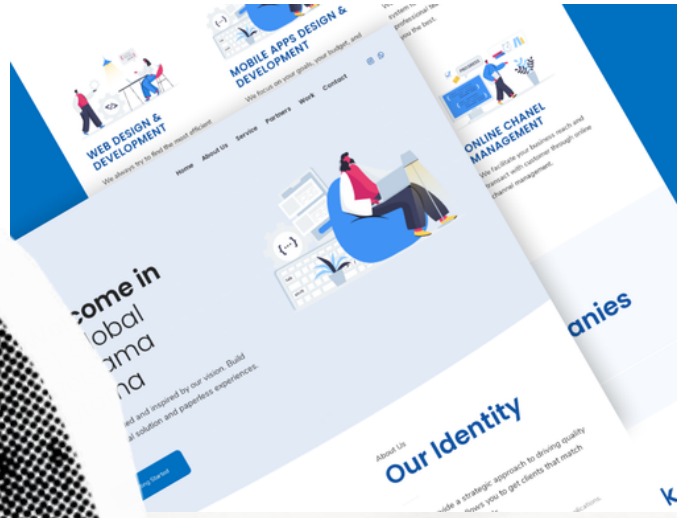

Media Social Portfolio

This media social design is build when instagram still use 1:1 aspect ratio for account feeds.
